ERRATA

Released: July 3, 2003

By the Chief, Telecommunications Access Policy Division:

On June 18, 2003, the Commission released a Fourth Report and Order and Fourth Further Notice of Proposed Rulemaking (FCC 03-126) in the above-captioned proceeding. This errata corrects the following errors in the released document.

1. The citation to the last sentence in footnote 34 should be corrected to 47 C.F.R. § 20.18(d). The sentence should read as follows:

We also note that carriers choosing not to implement the industry selected MIN/MDN separation solution for pooling are not excused from their obligation to deliver valid call back numbers to Public Safety Answering Points, in accordance with our enhanced 911 rules. *See* 47 C.F.R. § 20.18(d).

2. Appendix A and the corresponding rules should be amended to accomplish the deletion of old section 52.21(r) of the Commission's rules.

3. Section 52.21 is revised to add a new subsection (a) to read as follows and to redesignate old subsections accordingly. The old section 52.21(r) should be deleted:

§ 52.21 Definitions.

- (a) The term *100 largest MSAs* includes the 100 largest MSAs as identified in the 1990 U.S. Census reports, as set forth in the Appendix to

Federal Communications Commission

this part, as well as those areas identified as one of the largest 100 MSAs on subsequent updates to the U.S. Census reports.
